

Marina Power and Lighting Powerslide RV Pedestal

The next-generation
RV pedestal is here!

Powerslide RV Pedestal

Specifically designed for the RV market - Eaton introduces its best solution for pull through spots. All utilities in a single enclosure provide safe and secure access to electricity, water, communications, and lighting. Eaton's classic Sandelwood paint offers a UV protective coating with texture for long-lasting finish, rain or shine.

- Installation via patented slide and screw mounting technique
- Fully polycarbonate non-metallic components
- Integrated Light-sensing LED lighting
- Pad mount or direct burial options available
- Integrated water and communications ports
- UL 231 listed
